## WALRY FIGHTS RAIDERS FARMERS

**Hundred Seized After Battle.**

By GEORGE SELDES.  
Special to The Chicago Tribune.

WALRY, Oct. 1.—The war between the cavalry and the farmers in the Oklahoma Territory reached a climax today when cavalry, fighting several hundred men who were raiding the farms, captured and interned approximately 100 of the raiders. The battle, which was fought in the vicinity of the town of Muskogee, was one of the most severe in the history of the territory. The raiders, who were led by a man known as "Red" Williams, had been raiding the farms for several days, and had captured a large number of horses and cattle. The cavalry, who were led by Major Dever, had been following the raiders for several days, and had finally caught up with them today. The battle was fought in the early morning, and the cavalry won a decisive victory. The raiders were captured and taken to the Muskogee military camp, where they will be held until they can be tried. The cavalry also captured a large number of horses and cattle, and a large amount of property. The raiders were armed with rifles, pistols, and knives, and they had been raiding the farms for several days. ## COALITION OFF, BOTH PARTIES TO PICK TICKETS

County Board Place Wrecks Deal.

BY FRANK BUTZOW.  
Republican and Democratic leaders in eleventh hour caucuses last night virtually abandoned all notions of coalition or a bipartisan slate in the judicial election Nov. 2.

Unless there are some sudden and unexpected developments today both party conventions when they meet this afternoon will select separate tickets and lay plans for a fight on party lines, which will include a battle over the coronership and the county board vacancy.

The vacant place on the county board was the rock on which coalition was dashed. The Democrats demanded it as the price of coalition. The Republicans, who fear that County Commissioner Tom Murray "has gone permanently Democratic," thus splitting the present fourteen votes on the board evenly between Republicans and Democrats, refused to accede to the Democratic demand, which would mean control of the board.

Day of Conference.

Conferences and caucuses, one after another, were held yesterday. First the Republican and Democratic chieftains conferred separately and then joined in bipartisan confabs, only to break away for their own camps again.

Further conferences are slated for as late as 8 p. m. today, a few minutes before the conventions are to open. These probably will take the form of party caucuses. Most leaders agreed last night that only a miracle would avert coalition.

With coalition practically dead, the principal task confronting party managers today is that of sorting over bidders for seventeen places on each judicial ticket. Democrats hinted that the convention might not complete its job today. Under the law they have until Friday to finish their slate making.

Stalling Judges Sure of Place.

Both parties will nominate the sitting judges, six from each party. In addition to the nominations for full term Superior Bench candidates, nominations will be made for the Dever vacancy in this court and for the Merrill and Winkles vacancies on the Circuit bench.

George E. Brennan, Martin J. O'Brien, State Representative M. J. Igoe, Sanitary Trustee Timothy Crowe and a few other Democratic leaders remained in conference with the six sitting Democratic judges long after all other conferences broke up last night. It is understood the Democrats will nominate Clayton Smith, former city clerk, for county commissioner for the Daniel Ryan vacancy. John Creager is slated to go after Coroner Oscar Wolf's scalp. Mr. Wolf, it is understood, probably will be nominated by the Republicans to finish the job of the convention. That the term county board to fill the vacancy caused by Peter M. Hoffman's election as sheriff.

Plans Kept Under Cover.

Until yesterday all maneuvers had been in the nature of overtures and suggestions. It was not until the eve of the convention that the party chiefs got down to brass tacks. They were even reticent then to discuss details of the day's developments.

What effect the virtual decision to make the judicial election a straight party fight will have on the independent movement is a matter of conjecture, although it was said last night that the factors behind the proposed independent slate intend to go through with it to a finish. They have not filled out their ticket, however. It was rumored last night that Assistant State's Attorney Edgar Jones had been slated and would accept a place on the independent ticket.

## Cops Nab Rum as Mrs. Dever Spurs 'Em On

Mrs. William E. Dever, wife of the mayor, inspired new activity against beer selling and rum running last night when, aroused by complaints from neighboring housewives, she caused the Sumnerdale station police to raid five suspected places early this morning.

The places raided and those arrested are:

Broadway Grill, 4940 Broadway; Henry Waldman, owner, booked on two charges—selling cigars without a license and possessing liquor in violation of the prohibition law. More than 500 packages of cigars seized.

Winona Hall Is Raided.

Winona hall, Hoard street and Winona avenue; William Ackerman, owner, arrested; about twenty gallons of whiskey, gin, and wine found in the place were confiscated.

Saloon at 6483 Broadway; Henry Winters, owner, taken into custody; four jugs of whiskey seized.

5323 Ravenswood avenue, a saloon; Oliver Wandler and Mrs. Emma Helinger, wife of Andrew Helinger, owner of the place, were arrested when some gambling devices were found.

Richard Becker, owner of a saloon at 5100 North Western avenue, was also arrested by the police and booked on a charge of disorderly conduct.

Bugs and Roche Again.

Detectives Burke and Roche, acting with Sgt. Blau, raided the Foodie Dog, a cabaret and bar at Clark and Chestnut streets. Burke and Roche raided premises some time ago by raiding the T. and the Albany hotel. Last night they arrested the owners of the Foodie Dog and six patrons and took possession of some liquor. The proprietors were charged with keeping a disorderly house.

## BOTH SIDES ARM DESPITE RECALL OF TROOP ORDER

Walton Yields After Long Contest.

Oklahoma City, Okla., Oct. 1.—[By the Associated Press.]—Balloting tomorrow in seventy of the seventy-seven counties of Oklahoma seemed certain tonight notwithstanding last minute attempts by Gov. J. C. Walton to halt the state-wide special election.

The situation, as compiled by the Daily Oklahoman, showed that only seven counties will be influenced by the governor's edict that the special election is illegal.

Backed by an attorney general's opinion, officials in the other counties went ahead with plans to hold the election. Thousands of special deputies are being marshaled to prevent threatened interruption by the executive's latest move, and in some cases, court injunctions have been issued to block any such action.

Calls a New Election.

The governor's latest move to thwart a vote on an initiative proposal which would empower the state legislature to convene at its own call and consider impeachment charges, came early tonight, with the issuance of a call for another election on Dec. 4. Observers predict that this will have little effect on the vote on the measure tomorrow.

The seven counties, where it is indicated, these will be no-election, are: Elmore, Bryan, Nowata, Johnston, Jefferson, Murray, and Nowata.

There will not be any military interference, according to a decision by the governor late today. But the bitter factional split around in the last few weeks makes the prospect of serious clashes at various points in the state grave. From a number of cities it was reported tonight that large numbers of men were preparing to go armed tomorrow at the polls.

A deputy sheriff at Tulsa was quoted tonight as saying: "If we're back to the days when we got to go gunning for the right to vote, now is a good time to start."

Reinforcements of New Men.

Reinforcements and crowdings in the controversy came thick and fast today.

First Gov. Walton reconvened the state election board, and orders, issued by the new board, went out at once by telegraph to all county boards to halt the special election scheduled for tomorrow.

But a little while after the governor had dropped this trump on the table a restraining order enjoining all military and civil state officers from attempting to remove from office any members of the Oklahoma county election board was granted late in the day by Judge George W. Clark in state District court. In other words, the new state board was forbidden to carry out the orders to county boards.

Similar injunctions against interference with the Carter and Marshall county boards also were issued late in the day.

Calls Off His Troops.

Following these events Gov. Walton started the capital at least by his declaration that the military force of the state would not interfere with tomorrow's special election.

The statement, addressed to "the people of the state of Oklahoma and all peace officers of the state," followed: "It has come to my notice that I now to now being circulated that I will interfere by means of the military to prevent or obstruct the pretended election advertised to take place tomorrow."

"This is to advise you that the military force will not interfere in this pretended election and I hereby request all citizens of the state to preserve the peace and good order."

"J. C. WALTON, Governor."

Calls Referendum Dec. 4.

Then, as if developments had not already come fast enough, the governor, late in the evening, issued his call for a special election Dec. 4 on the initiative proposal.

"If the people want to amend their constitution so as to enable the Klux Klan members of the legislature to impeach their governor and thereby remove all legal restraint on the lawlessness of the Klan, then I submit, I don't want to be governor and will advise that we acknowledge the sovereignty of the initiative measure," the governor declared in a formal statement made public with the call.

Willing to Listen to People.

In his proclamation tonight, Gov. Walton declared the supreme issue in Oklahoma is whether the "revolving empire," commonly known as the Klux Klan, or the sovereign power of the state of Oklahoma shall survive.

Another association of the names of John Dorothy Dow, of Lockport, Ill., and Edgar Lee Masters developed last night when it was announced the author of "Spoon River Anthology," has written the preface for a volume of verse soon to be published by the Lockport postess. Mrs. John Walters, mother of Miss Dow, about two weeks ago put a question on rumors of her daughter's engagement to Mr. Masters. The principals were more or less somnolent. "Black Babylon" is the name that will carry Miss Dow's latest work.

## 'MAIN ST. HUBBY' DIVORCED WIFE ARE REMARRIED

James Corry Johnston, who was termed a "Main street hubby" by his wife, Mrs. Carol Willis Ellington, has become a liberal devotee of cultural literature, according to Mrs. Ellington's attorney, Philip R. Davis, who yesterday revealed word that the couple had been remarried in Atlantic, Ia., last Wednesday.

They were divorced last month after Mrs. Ellington charged her husband fornicate for attending musical concerts and to read so-called "higher-strata" magazines, including the Dial, Nation, Freeman, and the New Republic.

## Girl, 8, Fatally Burned When Sealed by Bonfire

Charlotte Roster, 8 years old, 554 Princeton avenue, was burned fatally today afternoon, when, while sitting near a bonfire which she and playmates had built in the alley near her home, she clothing caught fire. The girl's playmates, made frantic by her screams, ran to the Roster home and notified Mrs. Roster. Mother and neighbors extinguished the flames and carried the girl home, where she died several minutes later.

St. Paul, Minn., Oct. 1.—Three months ago Harry Simmons accused Harry Sommers of stealing his straw hat. Sommers protested his innocence and in the ensuing quarrel Simmons shot him dead. Tonight, a few hours after his case had been presented to a grand jury, Simmons hanged himself in the county jail, using a rope improvised from a blanket. The hat cost \$2.

## EVANSTON HAS MYSTERY DEATH

Shotgun Victim Found in Dempster Road Field.

A collie dog, circling mysteriously about a spot in the cornfield of John F. Johnson, near the western limits of Evanston and adjoining Dempster road, led to the discovery yesterday of a man's body. About twenty feet away lay a rusty shotgun.

The Evanston police, unable to identify the man, do not know whether they have a murder mystery on their hands. Chief of Police Leggett believes the man accidentally shot himself while hunting.

Blind of Murder.

Some of the detectives, think the body was hidden in the cornfield by those who killed the "mystery man." The body has been there, apparently, for several months.

"I was last in that field around the 4th of July, when I cultivated it," said Johnson. "Today I went out there again to cut the corn. In a few minutes I noticed the dog, circling around in a funny sort of way." Johnson investigated and came upon the shotgun. Then he discovered the body, lying in the corn about 200 feet west of Dempster road and a short distance from the north horse drainage canal.

Face Nearly Obliterated.

The features were almost obliterated by the shotgun charge and the work of decomposition. The clothes, of a good quality of blue serge, were partially rotted. The man wore black overalls and was about 5 feet 7 inches tall. Several shotgun shells were in his pocket. The only marks of identification were the number A-28579 on the shotgun barrel and the initials "D" engraved in a gold knife attached to the watch chain.

Officers Kehoe and Roberts took the body to Roosevelt's undertaking rooms in Evanston.

## CHARGE PEABODY HELD \$1,000,000 OFF TAX BOOKS

Aurora, Ill., Oct. 1.—[Special.]—A petition alleging that the late Francis S. Peabody, Chicago coal dealer, who died suddenly on his farm near Hinsdale Aug. 17, 1932, failed to report stocks, bonds, mortgages and other securities valued at about \$1,000,000 to the assessor, and asking that his estate be assessed for the amount, has been filed with the DuPage County board of review. It was announced today by State's attorney C. W. Reed. There is to be a hearing on the petition at Wheaton next Thursday at which the three executors named under the will, Stuyvesant Peabody of Hinsdale and George Getz and C. J. Grey of Chicago, will testify.

The property, consisting mostly in stocks and bonds of coal companies, was discovered when the liberian tax report was being prepared, Mr. Reed said.

## BOUND TO CHAIR, WOMAN ROUTE 2 BANDITS BY RUSE

Although robbed of her purse and several valuable diamonds ring last night, Mrs. Lucile Levin, 34 years old, 2435 West 44th street, managed to frighten her assailants, two youthful bandits, from her home after they had tied her to a chair in the dining room.

The husband, Melvin Levin, an attorney, returning home shortly before 10 o'clock, found his wife in a semi-conscious condition from her experience and efforts to release herself.

When questioned by police Mrs. Levin said she thought the robbers intended attacking her after they had ransacked the house, but left when she began making an imaginary meal.

## YOUTH WITH ONE SUIT CONFESSES HE PILFERED IT

A nervous young man stepped into the detective bureau last night and asked to see the lieutenant. He seemed on the verge of tears.

"I stole the suit of clothes I've got on," he blurted out. "It's been bothering me for two days."

The youth, James Vernon of 215 East 22d street, wanted to return the stolen clothes, but he possessed none of his own. Sgt. Andrew Aitken volunteered to give him a suit, so that he would be able to appear in court today. He spent last night in a police cell.

Beach Haven, N. J., Sept. 1.—Dr. Maurice F. Egan, former minister to Denmark, who has been ill at his summer home here since Sept. 3 and whose condition on Saturday last became so serious that his relatives were summoned, continued to lose ground during the day, attending physicians announced tonight. It was said Dr. Egan had not been conscious in the last twenty-four hours and that he was gradually getting weaker.

## JAP QUAKE DEAD 103,000; 235,000 STILL MISSING

Washington, D. C., Oct. 1.—An official dispatch from Tokyo to the Japanese embassy today placed the number of known dead in the earthquake zone at 103,000, the injured at 125,000 and the missing at 235,000. The number of persons who have left Tokyo is 245,000. A total of 534,000 houses was destroyed.

Formosa Is Shaken.

TOKIO, Oct. 1.—[By the Associated Press.]—Severe earthquakes shook Taifu, Formosa, Saturday, destroying many houses, according to official reports received in Tokyo. It is feared the loss of life was heavy. The shocks were continuing when the last report was sent out. There were severe shocks around Shimon on Honshu Island about eighty miles southwest of Tokyo Sunday.

## OPTIMISTS VISION TAX RATE SLASH IN VALUE FIGURES

Predict Surplus Over City  
and School Demands.

An increase of \$7,629,573 over 1922 in this year's tax levy, filed by the city for the administration of city and school affairs, should be more than met in the increased real estate and personal property valuations, and would not cause an increase in the tax rate of the city, it was pointed out yesterday.

For the operation of schools this year the city asks taxpayers to pay \$57,250,000, an increase of \$5,500,000 over last year's figure of \$51,750,000. The city departments will require a levy of \$63,648,868, an increase of \$2,698,573 over last year's figure, \$61,554,793.

Some Predict Lower Rate.

Last year the city demanded a levy which would have required a city tax rate of \$3.99, but the rate was reduced to \$2.30. With the latter rate this year, provided real and personal valuations are increased \$50,000,000, as some say they will be, the city would get all it asks for both city and schools, and have a surplus.

This leads some to the belief that the tax rate may be lowered for the second time in more than twenty years. The rate is fixed by County Clerk Robert M. Bennett by comparing the taxing bodies' demands with the total city valuation.

Personal property in Cook county has been boosted \$153,152,992 this year. Real estate in five city districts shows an average increase of more than 20 per cent. Applied this increase rate to the entire city real valuation last year, \$2,653,303,898, the total realty increase would be more than \$500,000,000, making all valuations around \$550,000,000. This figure, it is expected, will be reduced to some extent by the board of review.

What It Means in Dollars.

But assuming the increase to be only \$500,000,000, the additional revenue received by the city at the old tax rate of \$2.30 per \$100, based on one-half valuations, would be \$7,629,573. It asks \$2,698,573 more than last year.

As for the schools, where the rate was \$2.77 last year, the increase would be \$5,500,000. They ask \$5,500,000 more than last year.

Most of the large increase in the schools' tax levy is found in the items for educational purposes, which last year totaled \$36,000,000. This year they are \$40,000,000, an increase of \$4,000,000. Most of the city's increase is found in the levy for bonds and interest, which is increased \$1,717,370 from \$8,237,598 last year to \$9,954,968.

The city, in addition to the revenue obtained from taxation, will spend \$9,651,949.48 received from other sources, principally licenses. Chicago's total expenditure for schools and all other departments, as outlined in the tax levy, will be \$113,604,215.

H. C. L. on North Shore.

The board on review yesterday cleaned up the dispute between taxpayers and taxing bodies in north shore suburbs. The real estate committee of the board made a few reductions, but, in the main, confirmed the figures of the assessors after they had conferred with George R. Harbaugh.

## WEDDED 55 YEARS

Mr. and Mrs. Joseph W. Swafford, 5555 Race avenue, residents of Chicago for forty years, celebrated the fifty-fifth anniversary of their wedding yesterday. Two children, four grandchildren, and one great grandchild were present. Mr. Swafford is 73 years old, and his wife 76. They were married in Iowa City, Ia.

Assessor for New Trier township, in which the town is situated.

Indicated values in the suburbs caused hardships on home owners, declared B. M. Winston, a member of the committee. Property in Kenilworth, Winnetka, Wilmette, and Glencoe is no more desirable, although selling as high as \$11,000 an acre, than parts of Du Page county, where prices range from \$200 to \$300 an acre, Mr. Winston said.

Personal property in Cook county has been boosted \$153,152,992 this year. Real estate in five city districts shows an average increase of more than 20 per cent. Applied this increase rate to the entire city real valuation last year, \$2,653,303,898, the total realty increase would be more than \$500,000,000, making all valuations around \$550,000,000. ## SPEED WORK OF NAMING RACER AGAINST SMALL

Envoys of 6 Candidates  
to Pick Man Today.

BY FRANK BUTZOW.

The business of selecting a candidate to oppose Gov. Len Small in next April's primary advanced rapidly yesterday. Representatives of the six men in the "self-elimination" agreement renewed their conference, recessed over night, and, according to predictions on all sides, will reach an agreement on a candidate before adjournment today. Outstanding developments of the day included:

A call for United States Senator William B. McKinley and ex-Senator Lawrence V. Sherman, national committee man, to be here today.

Selection of committee representing all six candidates to confer with leaders of all Republican elements in Cook county enlisted in the cause of purging the party and state of Gov. Small.

Regarded a Practical Way.

This last decision is regarded as the most practical move that has been made since negotiations opened be-

(ween the rival candidates. It puts the qualifications and apparent strength of each candidate to the test of political experience shown of all sentiment.

These committees were busy all afternoon and last night sitting the candidates. Coupled with the attitude of Senator McKinley, they expect to be able to agree on an anti-Small standard bearer.

Senator McKinley, who returned to Illinois Saturday after a trip to Europe, favored further delay in reaching a decision, it is understood. In this every one of the six candidates, through his representatives, refused to acquiesce.

"The question will be settled tomorrow," said Walter Rosenfield, chairman of the Republican state committee, who presided.

Candidates to Stand by Action.

The candidates themselves—ex-Lieut. Gov. John G. Oglesby, John H. Harrison, S. S. Tanner, Attorney General E. J. Brundage, and State Senators Thurlow G. Eastington and Otto P. Olsen—remained outside the conference and agreed to abide by the action of their spokesmen. They believe they and the party have profited by "making haste slowly," but agree that the time has arrived for a decision.

The harmonious manner in which the conference have proceeded has caused considerable worry in the state administration camp. For weeks mouthpieces of the governor have sent out inspired rumors, only to substitute others the next day.

## SENATORS WILL VIEW WATERWAY COURSE TO GULF

Hold Hearings Upon  
9 Foot Channel.

Hearings by the special committee of the United States senate on the McCormick bill to improve the Illinois and Mississippi river channels from Lake Michigan for sanitary district purposes. The whole lake level controversy, with its Canadian complications, is involved in the proposed legislation.

The Chicago sanitary district's boat, the "Robert B.," has been chartered to carry the senatorial party to Lockport. The trip to Peoria will be made by automobile, with inspections of locks and dams along the route, and stops at Joliet, La Salle, Morris, Marseilles, and Ottawa.

At Peoria, after a hearing Oct. 13, the party will board the U. S. S. "Mississippi" the following day and follow this itinerary:

Oct. 20, Beardstown; Oct. 21, Grafton; arriving at St. Louis in the evening; Oct. 22, hearings and inspections of terminals and docks in St. Louis; Oct. 23, Cairo; Oct. 24, Memphis; Oct. 25, Vicksburg; Oct. 27-28, New Orleans.

Pierce-Arrow always has been noted for enclosed cars. We believe that in the minds of motorists they represent the utmost in distinctive coachwork.

Of the various types, the Enclosed Drive Limousine—is by far the most widely sought. This is because it is the only car which is completely convertible from a Limousine to a companionable seven-passenger Sedan.

A new and stancher body construction permits of a plate glass partition that is practically full width. It disappears with the turn of a handle, permitting an almost uninterrupted sweep of interior lines from windshield rearward.

We will be glad to show you the utility, luxury and comfort of this or other models, and to demonstrate the impressive performance of the famous Pierce-Arrow-built engine with dual valves and dual ignition.

Something new for dessert! Miss California would find it so she picked the most delicious fruits of her famous orchards, and shook down from the trees her choicest nuts. Even to her sister Hawaii she sent word and asked of her the wonderfully golden pineapple. Fruits and nuts she placed in a glass dish and blended them into Fruit O'Gal—a fruit and nut confection worthy of a place on a king's banquet table.

There is not a more regal dessert to serve. Fruit O'Gal has that substantial body, that delicious fruit and nut tingling goodness that men especially like. Give a holiday sweetness to your daily meals. Serve Fruit O'Gal for dessert. They'll like it. You'll like it.

## THE SITUATION IS GROWING MORE AND MORE EMBARRASSING

(Copyright: 1923: By The Chicago Tribune.)

rain was the "On to St. Louis" race which ended last night. Twelve aviators out of twenty-seven entrants from various cities flew to St. Louis in this contest.

A squadron of fifteen air mail planes arrived this afternoon. They left Iowa City, Ia., this morning under command of Harold T. Lewis. The planes are the ones used in the postoffice department's recent night flying tests.

The Harding bomber, the army's biggest airplane, is scheduled to arrive Thursday, as are the TC-3 and RN-1, two huge semi-rigid airships from Scott field. The gathering of this craft here, officials declared, will surpass anything previously attempted in aviation circles. Practically every type of airplane is now on the field and the various other lighter than air craft from Scott field will be flown here.

W. Frank Carter, St. Louis, it is said, is slated for election to the presidency of the National Aeronautic association to succeed Howard H. Coffin, Detroit, who is not a candidate.

**Physician Shows Cancer Cures by Electric Needle**  
High frequency electric current has been developed as a cure for cancer of the head, neck, face, nose, throat, mouth, and other orifices of the body where the knife is of no avail, it was announced yesterday at the opening of the sixth annual convention of the Central Society of Physical Therapists, at the Hotel La Salle.

Dr. T. Howard Plank, 29 East Madison street, opened the convention with a paper in which he told of numerous cures.

According to Dr. Plank, the theory of the induction of high frequency current into the diseased part in such cases of cancer and tumor where the use of the knife would entail the cutting away of some vital part of the bone or tissue is not new.

## OBREGON DRIVES WOLF OF WALL ST. BACK TO U. S.

Lamar, Fled by Plane,  
Faces Year Term.

BY FREDERICK WRIGHT.

(Chicago Tribune Foreign News Service.)

Mexico City, Oct. 1.—David Lamar, "the Wolf of Wall Street," was deported today at the request of agents of the United States department of justice. Lamar is wanted in New York, where he was convicted some time ago on fomenting strikes during the great war.

The offense is not an extraditable one, so President Obregon ordered him deported under article 33 of the Mexican constitution. Lamar was known in Mexico under the name of Lehman.

On Way to United States.  
Lamar is now on his way to the

border in charge of R. L. Dean and Herman Strauss, department of justice agents.

Lamar is another of the fugitives from the United States during the great war who sought refuge in Mexico. He was convicted in New York City in 1918 on a charge of conspiring in restraint of foreign commerce by fomenting wartime strikes. He fought commitment of one year in prison for five years, but on January 23, this year, the United States Supreme court denied him a writ of habeas corpus.

Dashed to Mexico.  
Lamar then appealed to the late President Harding for a pardon, but this was refused. Meanwhile Lamar vanished with his airplane with which he used to commute between his home at Pittsfield, Mass., and New York City. His \$25,000 bail bond was forfeited.

Later it was learned that he had driven his airplane across the country and into Mexico, where he thought himself safe because Mexico at that time was not recognized by Washington. Recognition has since been made.

Lamar is another of the fugitives from the United States during the great war who sought refuge in Mexico. He was convicted in New York City in 1918 on a charge of conspiring in restraint of foreign commerce by fomenting wartime strikes. He fought commitment of one year in prison for five years, but on January 23, this year, the United States Supreme court denied him a writ of habeas corpus.

## The odds are 4 to 1 against you

Bleeding gums herald  
Pyorrhea's coming

When the gums bleed, be on your guard. That's Nature's warning of Pyorrhea's coming.

The odds are 4 to 1 against you, for Pyorrhea strikes four persons out of every five past forty, and thousands younger, menacing their teeth and undermining their health.

At the first sign of bleeding gums, consult your dentist. Then brush your teeth, morning and night, with Forhan's For the Gums, a scientific dentifrice that, if used consistently and used in time, will prevent Pyorrhea or check its progress.

Forhan's For the Gums is the formula of R. J. Forhan, D. D. S. Used as a dentifrice, it will keep your teeth white and clean and your gums firm and healthy. It is pleasant to the taste. At all druggists, 35c and 60c in tubes.

reader without causing more bloodshed.

Attack on Garrison Steps.  
According to other reports from Kustrin, 800 monarchists, chiefly elements of veterans of Ehrhardt's brigade, assembled there in small groups during the night. Before the war the barracks was very general, but now it is half demolished and the guns have been removed by the allied commission. At 8 o'clock this morning the monarchists, armed with rifles, pistols, and machine guns, stormed the fortress, which is located about two miles out of town, overlooking the confluence of the Oder and Warthe rivers.

Two regiments of regular pioneer troops were stationed at the fortress. Only a few sentinels were on guard. They were speedily overpowered. Another report says monarchists among the garrison betrayed the fortress.

The monarchists rushed the fort while many of the regulars were still sleeping in the bunkers, ejecting them, and then seized the arsenal and began dealing out standing army rifles, grenades, and other munitions.

Driven from Fort's Bunkers.

Meanwhile, a few detachments of pioneers, turned under orders of the commander of the fort, Col. Cadovius, and made a counter attack, taking the monarchists by surprise and driving them out of the bastions of the fort, but they were unable to retake the arsenal.

Col. Cadovius ordered the leader of the monarchists to surrender, which he refused. From the arsenal the monarchists continued to snipe at the regulars. The troops returned the fire.

The 1,500 reinforcements, equipped with poison gas and grenades, who are due in Kustrin tonight, are expected to recapture the fortress by tossing gas bombs inside the arsenal under cover of darkness. However, the monarchists may don gas masks, which are inside the arsenal.

May Bombard the Fortress.

The Berlin government is prepared to demolish the fortress by an artillery bombardment if the monarchists refuse to surrender, but it is pointed out that, lacking heavy artillery, it cannot do much. The peace treaty provides that Germany may only possess ten batteries of six inch guns.

The attack on Kustrin is believed to have been a premature monarchist move. The plan was to march simultaneously on several towns in Pomerania, Mecklenburg, and Brandenburg. In the junkie stronghold of Kustrin it was planned to capture the fortress and make it a rallying point for 50,000 dispersed members of the monarchist organization. From this fortress the association of monarchists planned to march on Berlin.

## FOREST PRESERVE BOARD PROVIDES FOR VOTE ON ZOO

Resolutions offered by County Commissioner Frank J. Wilson directing that the referendum on the proposed zoological park in the Forest Preserve be placed on the ballot at the election of Nov. 6 were adopted yesterday by the Forest Preserve board.

Passage of the act by the voters will carry with it a tax levy of three-tenths of a mill for the first five years and one-half mill thereafter.

There will be no politics connected with the zoo, it is established, according to Commissioner Wilson, as the management and control will be vested in the Chicago zoological committee, of which John T. McCutcheon is president.

Two hundred acres, much of which was donated by Mrs. Edith Rockefeller McCormick, are available.

The site is in Riverside, between the Des Plaines river and Salt Creek, and within 12 to 13 miles of the city.

The county board also authorized the replanting of the trees escapes now on the Criminal courts building and adopted resolutions of condolence on the death of Peter J. Elliott, committee clerk of the board for the last twelve years.

DEFIES SOCIALISTS

BY JOHN CLAYTON.

(Chicago Tribune Foreign News Service.)

(Copyright 1923 by The Chicago Tribune.)

MUNICH, Oct. 1.—At a conference with Dr. von Kahr today, the Socialist leaders in Bavaria threatened a general strike unless their organization's newspapers were given liberty of the press and they were allowed to assemble.

Dr. von Kahr replied that he was ready to answer the strike threat—that he would crush them with all the means at his command. This was tantamount to a declaration that he would use the army against the Socialists and would turn machine guns on them the moment they tried to strike.

Later Dr. von Kahr called reporters to his office.

"There is no middle way between the right and left," he said. "Every Socialist and communist movement in Bavaria must be wiped out and their attempts to make trouble must be answered with our power. There is no recovery for Germany until all the Socialist and communist ideas and plans are driven from the country."

"Likewise every attempt to recognize the Versailles treaty must be hindered until Germany has fully recovered its economic, political, and financial security."

Dictator Forbids Strikes.

Dictator von Kahr issued an order tonight forbidding strikes, which will be punishable by imprisonment. For terror acts or sabotage penal servitude with unlimited fines is ordered, while for endangering lives or treason to the new system the penalty is death.

The Socialists and laborites are conferring, and it is believed that they will call a general strike, despite the prison orders.

In a statement tonight Dr. von Kahr said:

"The monarchy will not be proclaimed now, but it is growing, and it will come by itself when it is ready."

## CHILD LABOR AND REDS TARGET IN GOMPERS' TALK

He's Not Even Pink, He  
Tells A. F. of L.

BY THOMAS WHEEN.

Portland, Ore., Oct. 1.—(Special.)

In his opening address to the convention of the A. F. of L. in its forty-third annual session this morning, President Samuel Gompers laid particular stress on the child labor problem and on the growth of the Red movement in organized labor.

"Mr. Gompers was preceded on the platform by Mayor George L. Baker and by Gov. Walter M. Pierce, both of whom praised the A. F. of L. because of its stand against bolshevism and radicalism of revolutionary type."

"We have been sacrificing women and children in this country on the altar of Mammon," said Mr. Gompers, "but the conscience of the people of America has been awakened. Child labor of the country must be considered at all hazards. To say that the constitution of the United States is impotent to protect the children of our time is to beg the question."

Court Action U. S. Indictment.

"The courts have declared that laws which were passed by the congress of the country upon the demand of the people, to protect minors from undue exploitation, are void. That the people, through their representatives, cannot pass a law to protect the child life of our time is to lay the greatest indictment against our competency."

"This movement of ours, commonly known as a labor movement, is born of necessity. It is the result of conditions, born of hunger, by hunger—hunger for better food, hunger for better shelter, hunger for rest, hunger for recreation, hunger for music, the arts, literature—all that goes to make up a better and fuller life."

"Reference has been made here to the Reds and radicals. I know those who know me and who know my work know that I am not even pink."

Immigration a Disaster.

"The difficulty of the thing is that those who would label themselves as radicals know nothing of the great fundamental principles of the labor movement or the ideas for which the movement is striving. I take all sorts of people to make up a labor movement. All I ask of the labor movement of America is to continue to be a movement of the wage earners for the wage earners, by the wage earners."

"The labor movement has no choice of the material with which it will work. Its business, employer of labor, has kept a wide open channel to our country, bringing in immigrants so far below the standards that prevail that it has been a matter of little choice with us. As long as they are wage earners, however, we will organize them, not as radicals or Reds, but to make better men and citizens out of them."

"I wonder when the time will come, had let us pray that it shall come soon, when the men on the farms, in the workshops, and in the mines

shall come together to protect each other against their common exploiters."

In his speech Gov. Pierce, who was born and reared on a farm in Illinois, and who is known as the "farmer-governor of Oregon," said that the American Federation of Labor has won a place in the hearts of Americans because of its principles.

"We are unequivocally opposed to the Mongolian invasion; likewise the importation into this country of the Mexican neen or the great masses of

Europe. To those who cannot be assimilated, shut the doors tight."

The subject of the American Federation of Labor committee on education in social studies in the public schools was made public today. It states that the labor movement does not wish public education to be interfered with by partisan bodies of any kind.

Marvin P. Ryan, president of the car men's union, tonight announced that William Z. Foster, Red leader, in his speeches does not speak for that organization.

## How do you buy Clothes?

Most men who patronize the GOOD Custom Tailors do so because they have confidence that the tailor will make them a suit that is "right" . . . they "buy" personal service plus reputation.

The man who buys at the larger Clothing Stores may know the salesman who sells him but that salesman must sell what the store's buyer has bought . . . in this case "price" is generally the big factor in the sale.

Two times were added yesterday to the list of Cook county's automobile fatalities which since Jan. 1 has grown to a total of 611. City Physician David J. Frank Houde, 49, 1181 West 30th street, was fatally injured when he was struck by an automobile truck driven by John Dean 1354 West Madison street, at Racine avenue and 14th street. Houde died in Columbus Extension hospital. Dean was held pending an inquest today.

**Crash Fatalities Now Two.**  
The head-on crash of a street car and an automobile Saturday night at Chicago Grove avenue and East 20th street, claimed its second victim when Clarence Webster, 1425 Prairie avenue, father of baby Helen Webster, who was instantly killed, died in Mercy hospital. Webster's wife and three other persons in the automobile were severely injured and are convalescent in St. Luke's hospital.

Dr. Jones sat on the bench in the criminal court next to Judge John F. Jones. He had a typical crowd of Saturday and Sunday speeders and drunken drivers before him. During the morning. After court he said that the violators seemed to be divided into classes.

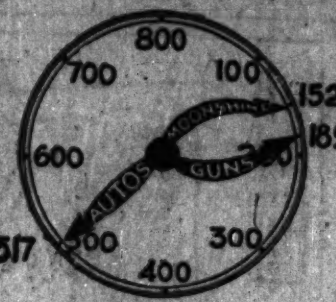

"The first type," he declared, "is that which craves excitement, is alert, quick and often intelligent. They travel fast and are fearless. Most young men and women drivers are in this class."

Both types held dangerous. The other type is the slow, stupid driver. When intoxicated or otherwise mentally disturbed, this type is extremely dangerous. Both types constitute a danger to society and should be taught respect for safety laws.

Dr. Jones will continue his observations for several weeks, when he will transmit his recommendations to Chief of Police Collins.

## "MAN-WOMAN" GOES TO TRIAL IN TESMER MURDER

Faces Court Waist-Clad, Hair Done in Puffs.

(Pictures on back page.)

Wearing blue denim trousers and a woman's flimsy gorgette shirtwaist, and with his long blonde locks done up in puffs not above each ear, "Freddie" Thompson, alleged "man-woman" murderer of Richard C. Tesmer, wealthy insurance man, was placed on trial before Judge John R. Cawsey yesterday.

The trial is the first murder hearing on the Criminal court calendar for the coming year, and the opening day found the large crowd of court fans thronging for the excitement they have missed for the last three months. Before the hearing had called the court to order, the large room was filled with spectators, a large majority of whom were women.

**Defendant Interested in Fame**

A few minutes after order was restored, "Freddie" walked in between two jail guards.

Assistant State's Attorneys William McLaughlin and Justin McCarthy began the questioning of the jurors. Each man was asked regarding his views on the death penalty, murder, impersonation, and men and women in general.

Frank B. Bauder, 1254 Winnamac avenue, Louis Shapiro, 1214 South Lawndale avenue, Fred W. Dyche, 1461 Montrose avenue, and Roy E. Wilkerson, 15534 Center avenue, Harvey, were the first four jurors accepted and sworn.

Upon adjournment, Thompson walked lightly back to his cell. As he passed through the lobby of the courtroom, he came face to face with the widow and daughter of the man he is accused of killing. The two turned their heads at his approach and he passed on with a smile on his rouged lips.

**Killed in Holdup.**  
The killing of Mr. Tesmer occurred last spring when the insurance man was putting his automobile in a garage in the rear of his home at 5833 Winthrop avenue. A man and woman attempted to rob the Tesmers and when Mr. Tesmer resisted, he was killed by the woman. His widow later identified Thompson as the "woman" who fired the fatal shot.

## FORD WILL ENTER OIL INDUSTRY AND SELL GAS, REPORT

Price of Flippers Gets Another Cut.

New York, Oct. 1.—[Special.]—Reports were current in oil circles today that Henry Ford plans to enter the oil industry in a large way and will make the retailing of gasoline and motor oil a part of Ford service at the 6,000 or more agencies under his control.

The development has stirred the industry as nothing has since California production commenced to smash the market.

Mr. Ford recently called to Detroit the heads of three or four of the largest independent oil companies known to have large surpluses of gasoline. None of these men was willing today to admit that he had talked business with Mr. Ford.

**Would Purchase Surpluses.**  
It is reported that the plan under consideration by Mr. Ford would be to purchase the excess and surplus supplies of a number of independent companies, ship this surplus to concentration points, from where it would be doled out to Ford dealers to be retailed.

It also has become known that Mr. Ford is having three deep test wells drilled in the Ford creek, Pike county, Ky., field.

In commenting on the possibility of Ford business principles entering the oil industry the Oil Trade Journal today declared that "if Henry Ford makes the retailing of gasoline and motor oil a part of his Ford service in the United States we may expect to see profit margins in the marketing business considerably narrowed."

**Ford Prices Cut.**

Detroit, Mich., Oct. 1.—[Special.]—Reduction of \$40 in the price of the Ford four door sedan and reductions in the prices of the runabout, touring car, coupe, chassis, and one ton truck were announced today by Edsel B. Ford, president of the Ford Motor company. The price reductions announced are as follows:

Runabout, \$4; with starter and demountable rims, \$14. Touring car, \$3; with starter and demountable rims, \$14. Coupe, \$5; four door sedan, \$40; chassis, \$5, and one ton truck, \$10.

## 108TH MEDICAL REGIMENT FAST BEING REFORMED

Recruiting to full strength of the 108th Medical regiment of the 33d division daily is progressing toward the goal sought, according to announcement yesterday by Col. Harry D. Orr.

"We are taking in men every evening at our headquarters, 115 East Ontario street," Col. Orr said. "When we finally get the organization to strength required—35 officers and 300 enlisted men—before we can federalize it. I am quite sure the regiment will have become one of the most popular military units in Chicago."

**Medical Training Not Essential.**  
"One of the reasons why recruiting has not been more rapid than it has is that there is a common impression that a man has to be trained in medicine or pharmacy to become a member. But this is far from true. In fact, we

prefer only a limited few who have this special training. Any man from 18 to 45 years of age who can pass the physical examination will be welcome."

**Components of Unit.**

The full regiment will consist of a field hospital, two ambulance companies, a sanitary company, headquarters section, medical supply section, medical laboratory section, dental section, and veterinary company.

**DR. ANGUS FREW ACCEPTS CHARGE JUVENILE HOME**

Dr. Angus M. Frew yesterday accepted the superintendency of the juvenile detention home, which was offered to him by Anton J. Cernak, president of the county board. Dr. Frew will assume his duties when the new home is opened at Roosevelt road and Ogden avenue on Oct. 14.

"I plan first to familiarize myself with conditions at the home," Dr. Frew declared. "Where methods should be changed, or best conditions exist, they will be remedied at once."

Dr. Frew is at present in charge of physical training at the Harvard School for Boys.

## Beautiful Homesites

Splendid Big Maple Trees  
24 Minutes by Train from Loop

OVERSHADOWED by splendid big maple trees, these lots stand in one of the best restricted residence districts of Chicago. Less than a half-hour from the Loop by Chicago & Northwestern steam trains, but with all the seclusion and picturesque beauty of a high class suburban home district. Safe playgrounds for the children, no danger from car lines; beautiful churches of different denominations, excellent, well-equipped schools; golf courses within easy reach.

All improvements are in  
You can build at low cost

All around these fine lots residences are going up fast, and property values are steadily rising. Sewer, water, cement sidewalks and paving are all in and fully paid for, and everything ready for immediate building. By our co-operation others are saving at least one-third the cost of building a home. One customer saved over \$3,000 last Sunday. The lots stand on high ground; splendid opportunities for planning terraces, gardens and flower parterres. This property is an old estate, in the midst of a high class residence district.

20% down; 5 years to pay  
Lots 30, 45 and 60 ft. frontage

It is hardly possible anywhere in or near Chicago to find homesites so handy for downtown, and yet in so picturesque a locality. The lots are large and spacious, with frontages of 30, 45 and 60 ft., and of unusual depth, as low as \$1,890 in price. All improvements are in and fully paid for. Purchasers can buy on easy terms, with initial payments as low as 20%; 5 years to pay the balance.

## CHAOS IN OKLAHOMA.

Gov. Walton, at this writing, has driven into the rough.

Declaration of martial law was within the executive discretion. The only correction for misusing this prerogative of the governor is impeachment or rebellion. The people of Oklahoma in the main do not seem disposed to resort to the latter. The former must await the convening of the legislature, which is not now in session. The convening of a special session is also a responsibility of the executive. Oklahoma, we believe all the states follow the plan of the federal government in this matter. That is, legislatures are required by law to meet once a year. The Oklahoma constitution declares that "the legislature shall hold regular biennial sessions as herein provided, but shall not prevent the calling of a special session of the legislature by the governor." The "impulsion" founded on a well known maxim of law, is that unless the governor calls a special session the legislature shall convene only in the biennial session provided in the constitution. We know of nothing justifying the attempt of the anti-Walton party in the legislature to call a special session.

This is an interesting feature of our system. Theoretically it might be contended that inasmuch as a leading principle of the system is a division of the powers with each branch independent, the legislative branch would be vested with the right to meet when and as it chooses. In the constitutional history of the method country, from which the members of the convention drew much of their wisdom, the effect of leaving the power to summon parliament entirely in the executive or king had been demonstrated to the extreme of civil war. But the English and the Americans following them, met the difficulty by providing for sessions of time fixed by law and also by limiting the period for which appropriations might be made.

These double checks were thought to be enough and in normal circumstances at least have been enough. Of course, on the strength of the Oklahoma crisis opponents of Walton will hold that the legislature ought to have the right to convene in emergency upon its own initiative. Whether it would have helped matters any in this case may be doubted. Our opinion is that our traditional rule is sound and need not be altered in favor of legislative autonomy. All our constitutions provide for frequent sessions of the legislature, and we need no more device to accelerate political action and throw our machinery of government any further within the influence of mobs and passions than it is now. The people of Oklahoma choose Walton. No one is to blame for him but himself. They chose his legislators, and the latter are disposed to impeach the governor they will have opportunity to do so in an orderly, lawful, conclusive way at the proper time.

But when Walton confronted the possibility of unfavorable action at a special election set by himself to consider a proposal under the initiative provisions of the Oklahoma constitution he stepped far beyond his authority. The people of that state expressly reserved to themselves the power to propose laws and amendments to the constitution and to enact or reject the same at the polls independent of the legislature. When Walton collides with this power and undertakes to prevent its exercise by force, he puts himself, it would seem to us, in the position of a lawless tyrant, a subverter of the fundamental law of Oklahoma.

There is also the question, if he is able to impose his will by use of force, whether he is not depriving the state of a republican form of government. But this guaranty of the federal constitution, including the guaranty against domestic violence, cannot be enforced until the convening of the federal congress, or that of Oklahoma. The President can act only upon the application of the latter body or of the governor.

FOR UPPER LEVEL  
SIDEWALKS.

Edward H. Bennett, prominent engineer-architect and member of the Chicago plan commission, has returned from a three-month tour of Europe thoroughly convinced of the fact that the best way to solve our low traffic problem is to build upper level sidewalks for all pedestrians. The city is to be congratulated upon the fact that an active member of the plan commission has declared himself for this idea. It offers hope of the winning of the commission to this practical method of reducing congestion and increasing business. As Mr. Bennett says, "by separating vehicular and pedestrian traffic through a raised level for the latter, you can create a machine in the loop that probably could handle traffic for all time to come."

REVIVING THE BONUS; NOT  
UNFAIR TO BUSINESS.

The national legislation committee of the American Legion will report to the Legion's annual convention in San Francisco next month that the federal soldier's bonus bill is absolutely certain to become a law during the next session of congress. A committee by the committee is said to have decided that the bill will pass the house by 7 or 8 to 1, and will have at least 15 votes to spare in the senate. It might be so. The bill is no more than justice, and justice long delayed. The most persistent argument against it is the one put forward by financial interests to the effect that the financing of a bonus will prevent much needed reduction of

federal taxation. Probably it will prevent such reduction. But that doesn't affect the justice of the matter. It will be expensive, but expense has never yet deterred the American people from doing what they believed to be right and honorable. We conscripted men for the great war. Since that war we have heard much talk to the effect that we must conserve capital and industry for the next war. At worst we will be only making that idea retroactive to a very limited extent if we authorize a federal bonus. That is no more than fair.

THE "ONE BIG UNION"  
MENACE TO UNIONISM.

Dispatches from Portland, Ore., inform us that proponents of the "one big union" idea are preparing to write a new bill in the annual convention of the American Federation of Labor to promote that cause. There is little likelihood of success. Advocates of the "one big union" are pretty thoroughly discredited among the wider union labor heads.

The thing they seek would destroy unionism by making it a direct issue between those Americans who look upon our constitutional government as the highest authority in this country and those who would raise an equal or superior authority beside it. There can be no doubt that in the event of such an issue our present constituted government would win. There can be little doubt that if the "one big union" were organized to include all present trades unions it would develop a new sovereignty in this country which could not fail to clash with the government.

The United Mine Workers of America have indicated that fact. As perhaps the most closely organized and powerful union of workers in this country, they may be regarded as fairly representative of what the "one big union" would be. The bituminous miners, largely through the "check-off," have submitted to a form of union government which puts virtually absolute power, backed by an income of \$15,000,000 to \$20,000,000 a year, in the hands of a small group of officers. These officers fine and assess the workers as they will, and use the money as they see fit without check or supervision by any public authority. The organization even goes so far as to raise armies and make war. It invaded the West Virginia coal fields with an army of 15,000 men. It organized armed forces for two battles in Ohio, one in Kentucky, and one in Illinois last year, in the latter killing more than a score of nonunion workers. In the Herrin massacre and its aftermath the union even proved that it controlled public authorities.

The men who advocate the "one big union" are of the same type, and in some instances are the same individuals, who have thus raised the miners' union to a position of sovereignty which has revealed the incidence to defy constituted government. It is logical to believe that the "one big union" would seek to apply the same methods to similar ends. That would mean a generally calamitous end of all unionism in this country. It would set back the cause of the workers more than half a century. The Federation of Labor will not allow anything like that.

HOW WE EXPRESS  
OURSELVES.

The editor of our Voice of the People department, who has read a good many thousand manuscripts of amateur writers, appeals for an editorial chastening of those who have taught, or who pretend to have taught, these contributors to write. He assumes that the vast majority of these writers are the product of our public or parochial schools. His perusal of perhaps 50,000 letters submitted to him for publication results in the conviction that most of these school products are turned loose upon the world, either inadequately instructed in the rudiments of letters, or with such lax and lazy mental habits that they would as soon be wrong as to apply what they have learned.

In other cases, there is a strong indication of our system of teaching. The use of the dash in lieu of proper periods, commas, semicolons, etc., is the most flagrant item of evidence of this mental or educational slackness. Literally thousands of writers, some using the stationery of our best clubs, some with personal monograms, some admittedly teachers or students, have never a period, a semicolon, or other conventional punctuation mark in their letters. A pause of any length is indicated by a dash. Sometimes the dash is followed by a capital and sometimes not. Innumerable others drop out most of their articles. Many spell badly. Almost all who write in longhand write badly. They are all slosh, lazy, and without pride.

To the credit of the typewriter, by its aid, its users generally are more careful or capable of proper construction than are the others. There are exceptions to that also, of course.

The indictment must not be taken as a personal complaint. The Voice of the People speaks with many guises. The department strives to live up to its title. It recognizes that many persons of lower education have interesting and perhaps valuable thoughts to express, and may express them, entertainingly or forcefully, regardless of grammar or punctuation. It also recognizes and appreciates the fact that many persons of superior ability and of high standing contribute to its interest and value. It welcomes them all, and reflects none because of poor construction, and accepts none because of haste and pure appearance.

But out of long perusal of them all comes the above conclusion, which might be constructive.

## Editorial of the Day

## NOB PSYCHOLOGY.

[Michigan State Journal.]  
A queer example of nob psychology is being given to Detroit. Thousands have declined to enter a house and view the body of a girl who died while under arrest for larceny. They have rioted and fought the police. Residents of a foreign district are in an ugly mood and prepared for further battles. All of this has developed because the girl, before she passed away, told her father, it is said, that she had been abused by the police; that this ill treatment had contributed to her illness and death. Marks on her body are pointed to as proof of the charges. But the police deny the claims; the hospital authorities assert her demise was due to acute pleurisy; that the bruises are the result of the autopsy. An inquiry will be made.

But the mob waits for no investigation. The masses conclude at once that the dead girl was right, that the police are wrong. That is very easy to be the position taken by the public. It is said, but people are more ready to believe accusations made against the agencies created to maintain the law than they are against the violators of the statutes. They are eager to think the worst. Why this is true perhaps the student of psychology can explain.

Lips that lie, and voices that languish; dead romances, broken vows; fierce delight and frenzied anguish, blended in a night's ardor; new liaisons, new divorces, following every change of mood; these (one learns from sundry sources, are, in substance, Hollywood. . . . Moonlit hours of love and laughter, lamp-lit nights of lust and sin, till the midwest morning-after brings the baneful daylight in: what a cost our Sues and Stellas pay to learn its code of vice! (I likewise have learned it, fellows—at a "less expensive price.")

I was taught by preachers' strictures, taught by journals I have read; taught by watching movie pictures, reading magazines in bed. Half of all that's filmed or printed, grave or piddly, bad or good, dishes out in chunks unstirred, mushy bunk on Hollywood. Every week—I do not doubt it—thousands toward its portals go. . . . "Of course," writes a lady, sending in this uncredited clipping, "you will not print it!"

The Women's Employment Society of Princeton (N. J.) has had nothing to do since Prohibition came and they have retired from service with a treasury full of cash, since, for almost two years, no one has applied for aid. . . . JERSEY, of all the states, possesses least reason for unemployment under the Eighteenth; for its long coast line, its possession of half-a-dozen salt-breezes beach-towns, and its tributary relation to centres like Philadelphia and New-York City make for profitable work for every man, woman, and child who might otherwise be in idleness. Apart from these mercantile benefices of Prohibition, the habitants boast a superiority complex in the matter of durable drink. The most distinguished Dry in Jersey is Frelinghuysen; and his private holdings, it is said, would make Grommen & Ulrich resemble pint-flask occasional.

AND the lady who sends the clipping adds that THE LION is "breaking the hearts of the W. C. T. U. women with 'wet propaganda'; whereas, Lady, THE LION is, in habit and practice, pitilessly un-moral, and far, far more W. C. T. U. than the women with the endangered hearts. The Editor's sole stimulation comes from self-contemplation; the pink in our cheeks is the rosy glow of coquettish rectitude.

NONE who drinks can be a sincere opponent of the Eighteenth. The morals of THE LION, in this case, do derive from the Constitution, but is maintained in spite of its comic inhibitions. . . . No, Lady; you're all wrong about it! We think that Mr. Flammont is at least as funny as Mr. Volstead or your pal, the Rev. Mr. Boynton. We have no wish that the Volstead Act be modified or mitigated; we are happy so long as it is intact and ignored.

If you want further information as  
to some of your village justices, write  
to our most esteemed citizen, A. J.  
Busch of the Anheuser-Busch company,  
Inc., of this city, and let him tell you  
what the daughter of one of the Illinois  
village justices of the peace did to him  
and his friend, M. B. Wallace, while  
recently returning from the Illinois state  
fair. This happened in Carlinville, Ill.  
Also write Col. William C. Baumgardner

## MORE OF MAYWOOD "JUSTICE"

Chicago, Sept. 25.—The case of Police  
Magistrate George W. Carr of Maywood  
is one, nevertheless more, than merely  
quoting him. If the people of Maywood  
are content to simply cast him they  
are a long suffering people.  
The writer came through Maywood  
after a 200 mile trip through Illinois  
when it was very dark and flashed on  
the big lights for but an instant; only  
one light, however, was functioning  
above dinner capacity. One of his  
henchmen on a motorcycle was saying  
for everybody who came along, eager  
to make a technical arrest. The writer  
was brought before his eminence, and  
after entering an explanation and sig-  
ing up the "game" entered a plea of  
guilty, merely to dispose of a bad situa-  
tion quickly.  
The fact that automobiles are per-  
mitted to throw on their big lights for  
a time on public boulevards would  
seem to minimize my one minute partial  
offense, if any at all, but the man Carr  
and his henchmen are not of the type  
to consider any mitigating circumstances  
which even our judges do every day.  
The fact that suits are being started  
from three different sources is demon-  
stration enough of the menace that the  
man Carr is to law abiding automo-  
bilists.  
Mal. Rogers is certainly to be congrat-  
ulated upon taking the initiative in ac-  
cusing to do away with the stigma of un-  
fair trials for motorists from the May-  
wood village name.  
B. H. STRONACH.

## FORIAL ATTENTION ALSO.

Chicago, Sept. 24.—I am a regular  
reader of THE TRIBUNE, but must con-  
fess to a great disappointment in your  
editorials. Do you want your readers to  
think that THE TRIBUNE is opposed to  
everything good in life? I do not think  
that you do yet that is the impression  
I receive.  
The latest in your attack on the Hu-  
mans society by you: "jumping bean"  
article. Every one knows that the Hu-  
mans society is organized to serve a  
great need. It at least has a good pur-  
pose. It has the eighteenth amendment.  
Newspapers have a great opportunity  
for constructive uplift, but it requires  
vision. If a newspaper must be attack-

## The Autumn Exposition

Our Formal Showing of New Apparel, Accessories and Home Furnishings

Also a Celebration of the Thirtieth Anniversary of the World's Fair, with an Exhibit on the Third Floor under the Auspices of the Chicago Historical Society

SO much of graciousness and gaiety depends upon the beauty and correctness of apparel, so thoroughly does it enter into the memorable occasions of life, that the ingenuity and talent devoted to its perfection are repaid in full measure. And underlying this always is the power of dress to create its own atmosphere of loveliness and charm—a thing which imposes on every woman the obligation to present, wherever she goes, as pleasing a picture as taste and circumstances permit.

When there is so much talk of rich simplicity as accompanies the present mode, artistry and sureness of effect in all arise from an exhaustive knowledge of the season's rich fabrics, slim lines and truly resplendent ornament. The Autumn Exposition gives emphasis to the opportunity which this Store always presents to customers—that of availing themselves of the assistance of distinguished fashion authorities.

### Notes of New Tendencies

#### Fans—French and Scintillant

Some of the most delightful nuances of history have sprung from the flick of a fan. Here you will find small French Fans scintillant with sequins, or of rich brocades and metal laces. Circular one-stick feather Fans are new, and the flaring grace of coque in brilliant shades.

#### Concerning Combs and Coronets

"And the stars in her hair were seven," or even more, if she wears at all, gracious comb, set with brilliants that match her gown or accent the color of her hair. Then, too, besides Combs brilliantly aglow, there are those made of jet, amber, and pearl.

#### Evening Gloves Follow Tradition

The very slight divergence from the twelve, sixteen, and twenty-button white kid Glove is only when they are of soft suede in pastel shades of pearl, mastic and light mode.

#### The Daintiest Possible Handkerchiefs

Corners of handkerchiefs used to monopolize embroidery, but now the entire borders of white and colored linen handkerchiefs from Paris show embroidered scallops.

#### To Be Sweet or Exotic?

That is the question of perfumes, and the preferred ones, in uncommon packages are often vividly oriental in their lavishly decorated container.

#### Chinese Jewelry, the Paradox of Old and New

Just unpacked from brilliant dragon-bedecked boxes of silk is this Chinese Jewelry. There are Earrings, Pendants, Bracelets—all of carved ivory, coral, white jade and enamel in a soft rare shade of Chinese blue. There are Earrings all of blue with many little pendants, and others shaped like pagodas very long and graceful.

### The World's Fair Exhibit

THIRTY years ago the World's Fair marked a new epoch in the city's progress in beauty. It brought to Chicago the Field Columbian Museum, it added to the valuable collections of the Art Institute, it gave inspiration for better architecture, it gave birth to the Chicago Beautiful Plan.

This institution has reflected the artistic progress no less than the commercial growth of the city. The city's spirit, its enterprise, its beauty, are embodied in the ideals of Marshall Field & Company.

Exhibit on the Third Floor, North

THE beauty of the Autumn mode is richly exemplified in the displays of new apparel on the Sixth Floor. Furs of rare quality, gorgeous wraps, and gowns resplendent in the loveliness of their material and the brilliance of their ornament—all these are parts of the pageant presented this week by the Exposition. The character of new fashions is well defined in the fine artistry of design and in the emphasis on unusual fabrics seen in costumes for both day and evening wear. Evening accessories take an important part in the displays.

## MAYWOOD'S COP QUITS AS CHAMP AUTO GRABBER

Village Again May Be  
Safe for Motorists.

"Mush" Barzema, Maywood's champion motorbike cop, is going into the stone hauling business, and merchant of his village hope now to get a bit of trade from transient motorists who of late have been making wide detours to avoid "Mush" and Magistrate Carr's court and maximum fines for minimum offenses.

Barzema last night turned in his star to President Leese of Maywood, and then some of the intimate history of "Mush's" regime on motorbike came out.

**\$150 a Head for Victims.**

It seems that Barzema has been a motorcycle policeman for four years, and until last spring was on a fee basis of \$1.50 a head for all automobiles he brought before Magistrate Carr. Seemingly "Mush" was too prosperous, for he was then put on a salary of \$150 a month plus \$25 monthly for upkeep of his motorcycle. It is reasonable to suppose, therefore, that Barzema's previous fees each month totaled at least \$150, which would represent a right smart number of arrests for auto ordinance violation, to say nothing of the \$25 upkeep for his bike.

Then "Mush's" Downfall.

"Mush's" capitulation came about through the arrest of Wilbur Rogers of Chicago, Rogers, hailed before Magistrate Carr, was refused a change of venue and compelled to travel 125 miles to and from Maywood before he won an acquittal. On one occasion the trial was put over another day because "Mush" was not available.

For some two years now Maywood has been marked with a skull and cross bones on the auto tourist's map. Far and wide the word went forth that the seclusive "Mush" lay in wait for the driver who in the slightest degree violated the village's rules of the road.

"Mush" to Haul Stones.

Rogers, however, when taken before Magistrate Carr demanded a jury trial and put his case in the hands of his attorney and counsel for motor clubs. At the same time Barzema presented his resignation last night it was reported that Chief of Police Louis Sweeney also would quit—perhaps to join "Mush" in the purchase of two trucks, which, as Barzema says, he will use to haul stones.

**PLATINUM AND GEMS STOLEN IN \$100,000 HOLDUP**

Newark, N. J., Oct. 1.—Two armed men today held up Henry Hirschberg, New York diamond merchant, and his assistant, Walter Biss, in the doorway of the factory in Irvington, N. J., of Wiegand & Co. jewelry manufacturers, and escaped with diamonds valued at \$100,000.

The highway men forced Biss to give them a special vest he was wearing, in the lining of which the gems were concealed.

**KILLED IN ELEVATOR ACCIDENT.**

Abraham Kolsky, 30, was killed yesterday on an elevator accident.

## JAZZ DRENCHES EUROPE'S MUSIC, STOCK ASSERTS

Weird "jam" strains born on the plantations of the south, wafted on wind and wedded to the swift, fantastic, bold, daring and frenzied music of the Viennese, the Russian, the Turkish, and the Latin, have produced in Europe a veritable "hysteria" of dance and composition, according to Frederick A. Stock, director of the Chicago Symphony orchestra, who has just returned from abroad.

Mr. Stock has spent several months on the continent searching for new compositions for the 1933-34 season of 155 symphony programs over a period of twenty-eight weeks.

In Europe, he says, new music has been invented with change too swift for the present sensitiveness of the human ear. The music is futuristic, utopian, and trip-tonic, he calls it, which, if it succeeds, will relegate the piano, which is confined to chromatics. The new dances over there are somewhat like American "jazz," but more climatic.

**SAFELY LOWEST GET \$200.**

Safely low, took more than \$200 yesterday from the office of the Chicago & North Branch company, 22 West Illinois street.

## SCHOOL HEADS ATTEND BURIAL OF E. G. COOLEY

Officials of the board of education and many teachers in the continuation schools attended the funeral of Edwin G. Cooley, former superintendent of schools and head of continuation school work, in La Grange yesterday. Services were held in Masonic temple and were conducted by the William B. Warren lodge No. 205, A. F. & A. M. The funeral sermon was preached by the Rev. Henry Seymour Brown, a former pupil of Mr. Cooley.

Flags in all continuation schools in the city were at half mast yesterday and will continue at half mast today and tomorrow. All continuation schools were closed during the afternoon. Among those at the funeral were C. M. McGovern, president of the school board, Superintendent of Schools Peter A. Mortenson, and Federal Judge Al Schuler.

**Relapse Is Suffered by Italian Princess**

ROME, Oct. 1.—Princess Giovanna, fourth child of the King and Queen of Italy, has suffered a relapse.

## Wisconsin Banker Falls Dead in Hotel Dining Room

Henry Ludlow, formerly president of the First National bank of Monroe, Wis., died suddenly last night in the dining room of the Palmer House, where he and Mrs. Ludlow were registered. Mrs. Ludlow and a daughter, Mrs. J. B. Crawford, were with Mr. Ludlow when he was stricken. Heart disease is believed to have caused death.

He is survived by his widow and three children, two of whom, Mrs. Crawford and Charles A. Ludlow, 4457 Magnolia avenue, live in Chicago.

**Peter Ellert, Clerk County Board, Dies Suddenly**

Peter Ellert, 75 years old, for twelve years committee clerk of the county board, died suddenly of heart disease yesterday at his home, 1328 Barry avenue. Mr. Ellert has been a sufferer for several years. He will be buried Wednesday at Greenwood cemetery.

**CLARENCE W. HARR, for the last fifteen years chief inspector dining car service for the Pennsylvania railroad system and for forty-four years connected with that road, died at Crown Point, Ind., on Sunday.**

## JOSEPH M'HUGH, NEWSPAPER MAN, DIES SUDDENLY

Joseph D. McHugh, well known newspaper man, a member of the Chicago Evening American staff, died early yesterday at the University hospital of peritonitis. He failed to rally from an emergency operation which had been performed on Sunday. He began his newspaper work with the City Press association and became a member of the Evening American staff seven years ago. He lived at 1211 North Spaulding avenue. He is survived by a widow and four children.

# "It is beyond question the best tooth powder I know of"

Dr. A. M. H.  
Chicago, Ill.

FOR YEARS the dentists of the country have been looking for a dentifrice that would not only clean the teeth, remove stains and prevent decay, by sterilizing the mouth, but relieve sensitive and bleeding gums. In short, a dentifrice worthy of being called such. They found this in Revelation, so they not only recommend it to their patients, but over 10,000 of them have written us that in their opinion Revelation lives up to every claim we make for it.

ASK YOUR DENTIST

If your dentifrice keeps your teeth clean, it should also keep your breath white and clean. —Watch the condition of your breath after using Revelation.

The fury of the Japanese was directed not only against the Communists, but against their own countrymen, the majority of whom lynched being Japanese caught looting or being suspected of anarchy.

The Russian Relief.

The revolutionaries of the Communist party determined the authorities to forbid the landing of any one from the steamer Lenin, a Russian relief ship dispatched to Yokohama from Vladivostok. Russian relief was declined, although before the facts were known the offer from Vladivostok was accepted.

When the Lenin reached Tokyo, whatever have been issued regarding the military and naval losses. Tokyo's defenses were completely wiped out. One cruise is known to have been sunk at Yokohama, and another was towed out on fire. Docks, repair yards, reserve guns and naval planes, observation balloons and dirigibles are gone, with a majority of the army planes, hangars and manufacturing plants.

The reserve stock of fuel was burned and the tanks destroyed. Shell, torpedoes and arms manufacturing plants were reduced to ruins. The navy college with its plans, designs and secret archives was destroyed. No word of all this has yet reached the Japanese public, which does not yet realize the extent of the national disaster.

The reserve stock of fuel was burned and the tanks destroyed. Shell, torpedoes and arms manufacturing plants were reduced to ruins. The navy college with its plans, designs and secret archives was destroyed. No word of all this has yet reached the Japanese public, which does not yet realize the extent of the national disaster.

## EXPECT GREATER SAFETY

The four-wheel brakes, a feature of the new V-8 Cadillac, constitute the greatest factor of safety ever contributed to motor car operation. They have been perfected by the same engineering talent which pioneered and developed the V-type, Eight-Cylinder Motor, Electrical Starting and Lighting, Thermostatically-Controlled Carburetion, and numerous other achievements in automotive engineering.

It is difficult to describe the action of these brakes—for at any speed, whether the stop is gradual or sudden, they absorb the momentum of the car in a manner which can only be fully realized in actual driving.

The driver will find an amazing certainty and ease of control in traffic, on slippery roads, and in higher speeds—an increased measure of that driving safety for which Cadillac has ever been commended.

In addition to their remarkable effectiveness they require far less adjustment than two-wheel brakes, have a longer wearing life and give complete steering control on difficult turns or under conditions where two-wheel brakes could not be used with safety.

You will experience a new feeling of security when you drive V-8.

## DICTATOR BLOTS OUT LAST CIVIL RULE IN SPAIN

BY RAYMOND FENDRICK.

(Chicago Tribune Special News Service.)  
MADRID, Oct. 1.—President Primo Rivera decided today after a meeting of the directorate to dissolve all "general councils" or county organizations making up the local units of Spain.

Following the abolition of the civil governors of various states and municipal governments in every Spanish town, this definitely wipes out the last vestige of ordinary constitutional government in Spain. The dictator intends to place army officers in charge of the districts previously governed by general councils.

Justice Rules Cities.  
King Alfonso today signed the decree dissolving all the municipal governments in Spain. The town councils are being replaced by "juntas," made up of soldiers, officers, merchants, and agriculturists. Such juntas are under direct orders of Gen. Primo Rivera, the military dictator. The directorate also announces that it intends to abolish the ministry of justice, supplanting it with the supreme tribunal, which previously functioned only in cases directly concerning the army and navy.

With Hands All Tied.  
The tribunal will be given charge of the entire administration of civil justice in Spain, which has been handed by courts martial since jury trials were abolished shortly after the dictatorship was declared. The supreme tribunal will operate as the final court of appeals from courts martial, and will control the action of the local courts martial, made up of officers.

## HEARING OF SUIT OVER 'L' CONTROL IS SET FOR OCT. 9

Hearing on a petition to rescind the sale of securities pledged to secure payment of gold notes aggregating \$14,000,000, issued by the Chicago Elevated Railroad Collateral Trust, was postponed to Oct. 9 by Judge Hugo M. Friend in Circuit court yesterday.

Attorney David Owen Dunbar, who appeared for the Illinois Merchants Trust company, which had advertised a sale of securities to take place tomorrow, said he was planning to go immediately to New York, where the sale was to take place.

Judge Friend was unwilling to hear the matter in preference to other matters before him, and the attorneys finally agreed to postpone the sale until Oct. 15.

The suit, filed by two stockholders in the trust, charges that Samuel Insull, president of the Commonwealth Edison company, had attempted to gain control of the elevated properties for his company. Mr. Insull has denied the charges.

## WRECKED CAR BLOCKS WAY TO DEAD IN CRASH

(Pictures on back page.)

Chaper, Wyo., Oct. 1.—(By the Associated Press.)—An empty, water-logged chair car, one end wedged in the mud of the creek bed, the other extending thirty feet into the air, tonight was blocking the efforts of more than fifty men and a wrecking train to clear away the tangled remains of the Burlington passenger train which piled up in Cole creek Thursday night. Since early last night the chair car,

partially filled with wet sand, has resisted all attempts to hoist it out. In its present position the car blocks all work, as both it and the baggage car must be moved before the buried smoking car can be rescued for the bodies of additional victims of the wreck. For four days the wreck has baffled the efforts of skilled wrecking crews to reopen traffic on the line and recover more than four bodies of the twenty-five or forty victims.

"I HAVE yet to find a Standard Oil service station attendant who fails to reflect the ideals of service set forth in Standard Oil Company (Indiana) advertising."

Such was the comment of an observant man who had been expressing his opinion of service in industry.

It is but a composite of the general feeling among patrons of the Standard Oil Company (Indiana).

The spirit of service is highly developed in every employe of the Standard Oil Company (Indiana), whether he wears overalls or occupies a place on the directorate.

Every man and woman of the 27,000 employes making up the personnel of this Company is obsessed with but one ambition—to do his or her part in making the Company greater in size and in service.

Such a condition cannot prevail under the lash. If it is to endure the desire to serve must be inherent in the individual.

It is a natural development that follows fair dealing, camaraderie, pleasant working conditions, just treatment, skillful management—in short, intensive organization modernized to the last degree.

That the employe in overalls should reflect the Company's ideals of service is the result of highly intensified organization.

It is eloquent of the spirit prevailing throughout the organization—of the complete understanding of purpose, between the executives and those who are on the firing line making the last turn in the great cycle of Standard Oil service.

Where complete understanding exists there are no obstacles too difficult to overcome.

Complete understanding between the management and the employe has made the Standard Oil Company (Indiana) big in size and big in service.

Complete understanding between the Company and the thirty million people of the Middle West has caused the list of shareholders in the Standard Oil Company (Indiana) to increase in four years' time from 4,600 to 42,706—not one of whom owns as much as 6% of the total.

## G. D. P. MAY PU McCRAY OUT FINANCIAL M

Indianapolis, Ind., Oct. 1.—The issue of the Republican state convention for this evening were of G. D. P. May and Warren T. McCray in and by the night ask, following a session to discuss the executive and legislative platforms.

Arrangement that such a session be put to the governor by Clyde A. Webb, chair of the state committee, after a session of five members headed by McCray visited Mr. McCray only this evening.

The governor had declined to with the whole committee to the state committee to discuss what would be his personal affairs. Webb would not discuss the issue. McCray likewise maintained only saying the meeting "friendly."

The peaceful ending, for the issue of the state committee's issue, the governor's financial statement followed a long session. Republican leaders, who participated were H. H. New, United States postmaster, and United States senator J. W. Wadsworth, and former Gov. J. W. Wadsworth.

## COOLIDGE PUSHES WORLD COURT UP IN CONGRESS LIST

BY GRAPTON WILCOX.

Washington, D. C., Oct. 2.—[Special.]—In an effort to get the world court protocol ratified speedily and with a minimum of interference with the legislative program, President Coolidge is planning a series of conferences with influential Democratic senators, as well as with senate leaders of his own party.

Mr. Coolidge wants to question them and learn their ideas as to the best method to get prompt results concerning the world court. He hopes to be able to arrive at some common basis of understanding in the way of resolutions that will bring about a quick disposal of the court problem and leave Congress free to give its whole attention to pressing domestic questions.

**Willing, Not Enthusiastic.**  
The President has reiterated his intention of carrying out the policies of his predecessor, but it is no secret in Washington that he is not an enthusiast about the world court.

He feels it his duty to remind the senate that the protocol submitted by his predecessor still awaits action, but he is not expected to try any "big stick" methods.

The outlook for harmony between the President and the senate over foreign policy is brighter today than it has been for a long time, although there are still some dark spots on the horizon. Senator Borah [Rep., Idaho], during irreconcilable, has informed the President that he stands ready to vote for ratification of the world court protocol on the terms laid down by President Harding in his St. Louis speech.

The Democrats, because of their pro-league tendencies, have been counted as friends of the world court, but there has been a falling off of Democratic support since it has been proposed to separate the court from the league.

**Some Oppose Divorce.**  
Senator McKellar [Dem., Tenn.] has announced that he cannot support the court under the self-perpetuating plan suggested by the late President Har-

## AGED PRINCESS AT LOVER'S BIER WITHOUT MONEY

[Chicago Tribune Foreign News Service.]

PARIS, Oct. 2.—[Tribune Radio.]—The body of Count Gera de Mattasich was laid out in the church of St. Philip today, while Princess Louise of Belgium is anxiously awaiting news from Brussels as to the action of the Belgian government.

The princess, who is now absolutely penniless, cannot even pay the funeral expenses of the man for whom she gave up her royal position thirty years ago. The duchess of Schleswig-Holstein, Princess Louise's daughter and the former Kaiser's sister-in-law, disowned her mother more than twenty years ago, and the former Kaiser is not expected to help her.

The princess, draped in black and leaning heavily on a stick, went to the police station this afternoon to fill out the death papers for her lover.

While awaiting the action of the Belgian government Victor Nitner, Vienna industrialist, continues to pay Princess Louise's bills. Herr Nitner also contributes to the expenses of Princess Louise's cousin, Empress Zita, now in Munich.

And if any of the Democrats ask Woodrow Wilson how he feels about it, he probably will not hesitate to denounce the proposal to divorce the league and the court.

Still another element in the situation is the attitude of Senator Hiram Johnson [Rep., Cal.], who is likely to oppose the world court to the bitter end, with or without reservations.

The league's fiasco in the recent Greece-Italian crisis, however, has simplified President Coolidge's task of supplying a foreign policy satisfactory to the various factions in congress and the country. It has relieved the pressure for entering the United States in the league or some other kind of international association.

**And Some Don't Care.**  
League enthusiasts are less enthusiastic, and many who were waiting for the league to demonstrate its usefulness are now convinced that it is of little value as an instrument for the prevention of wars.

## BALKAN NATIONS CONFER TO END WAR ALARMS

BY LARRY RUE.

[Chicago Tribune Foreign News Service.]

SOFIA, Sept. 30.—[Delayed.]—Conversations are beginning here tomorrow with a Serbian commission. The discussion will be confined to the settlement of outstanding questions such as the Bulgarian requisition of Serbian properties during the war, private claims of the respective nationals and

the methods of application of the Nisch agreement for the protection of the frontiers according to M. Minkoff, secretary of the foreign office.

Great importance is attached to the meeting, which it is hoped will dispel the distrust endangering peace in the Balkans.

**Statement of Official.**

"The Nisch agreement for the protection of the frontiers already is effective in a way, we suppose, that is satisfactory to both governments," M. Minkoff said. "It was decided at Nisch that Bulgaria and Yugoslavia were to take independent action such as each considers necessary to protect their side of the frontier. There have not been any bands crossing here since the new government entered into power on June 9, although all kinds of alarming rumors are prevalent, such as bands are congregating here ready to descend on Macedonia. These are not founded."

Private requisitions of the Bulgarian army, totaling \$2,000,000, in Serbia probably will be acknowledged by Sofia as outside reparations.

**Also with Roumania.**

Bulgaria intends to raise the question of the status of Bulgarian private property in Serbia. Also it will send a commission to Bucharest shortly to arrange for compensation with Roumania, if the latter returns the private property of Bulgarians to the previous owners.

Although Roumania in the second Balkan war, seized Bulgarian Dobruja and in 1918 evicted many thousands of Bulgarians, the treaty gives Roumania the right to confiscate the private property of all these nationals.

**Bandits Not Expected.**

Two armed men robbed John Tapp of \$63 in his restaurant at 6556 Cottage Grove avenue yesterday.

## One Beauty

That millions now cultivate—  
The beauty of pearlier teeth

This invites you to make a test which delights all dental people. To learn the way which millions know to whiter, cleaner, safer teeth.

You owe it to yourself. You owe it to your family and friends. Careful people of all nations are turning to a new teeth-cleaning method. Learn what it means to you and yours.

### The fight on film

Dental research proved that film is the cause of most tooth troubles. And the cause of dingy teeth.

Film is that viscous coat you feel. Despite the tooth brush, much of it clings and stays. It becomes discolored more or less, then forms cloudy coats. That is why teeth lose luster.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Very few people, under old methods, escaped these film-caused troubles.

### New methods now

Now dental science has discovered effective film combatants. One disintegrates the film at all stages of formation. One removes it without harmful scouring.

Able authorities proved these methods by many careful tests. Then a new-type tooth paste was created to apply them daily. The name is Pepsodent.

Leading dentists everywhere began to advise its use. As a result, careful people of some 50 nations are employing it today.

Pepsodent does other things essential. It multiplies the alkalinity of the saliva. That is there to neutralize mouth acids. It multiplies the starch digestant in the saliva. That is there to digest starch deposits.

### Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

## Send Coupon For 10-Day Tube

Those are Nature's great tooth-protecting agents in the mouth. Every use of Pepsodent gives them manifold effect. These combined results are bringing a new dental era to the people who use it.

### No smoke stains— No cloudy coats

The stains of tobacco lodge in film. So do food stains. That is why teeth cease to gleam. That is why so many seek to hide their teeth.

The modern way is to fight that film. Combat it every day. Fight those coats and let the natural luster show.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the film-coats disappear.

You will gain a new conception of what clean teeth mean. You will gain results you would not go without. You owe yourself this test. Cut out coupon now.

## "FIRED"!

"The Viewpoint of the Employee is the Most Neglected Asset in Industry."

THIS man has just been "fired" from your plant. You may not know the reason. You may not know the man. You may not know, even, that he has been discharged.

BUT—he may be one of your most valuable employees. As he stalks out your factory gate he takes with him a considerable share of your rightful profits. The wages paid him while he was "green"—the money you would have received from his skill; all this becomes an irretrievable loss the moment he is "fired." And these cuts in your profits are multiplied by perhaps scores of similar dismissals each year.

Maybe this man was "fired" because he misunderstood himself and his job. Perhaps you must suffer this loss because a foreman misunderstood him. Whatever the reason, we can engage to correct this and similar conditions that are causing losses of one-fourth the payroll in even supposedly well-managed plants, with serious damage to employer and employee.

You will be interested in our booklet, "Stopping Payroll Losses," which is sent executives gratis, on request. Please address Dept. N2.

# Double — faced Red Seal Records

For those who appreciate the utility and economy of the double-faced record, the Victor Company now for the first time offers Red Seal Records in that form.

We have delayed this change because of the difficulty of making satisfactory combinations of selections and as it is clearly impossible to meet everyone's ideas in this respect, the list of single-sided Red Seal Records will be continued.

A separate Red Seal Catalog has been issued, containing new list prices for both Double and Single, a portrait of each artist, with a complete biographical sketch.

This new Red Seal Catalog is worth having. Please call on your dealer, or write to us and receive a copy. Also, hear new Victor Records on these new Victrola models. They are a marked advance in talking machine art.

# Zone 7

*The*  
**Chicago  
Territory**

## Here Is a Market Well Worth Cultivating

*One-fifth of the country's buying power—one-sixth of the country's population—only one-twelfth of the country's area—137 cities of over 5,000 concentrated within a radius of 300 miles—all readily accessible from Chicago—are all blanketed by The Chicago Tribune.*

**H**ERE you find wealth built on the most secure foundation imaginable—fertile soil, tremendous industry and strategic location.

Zone 7 is the very heart of the Corn Belt—America's richest agricultural section. Here hundreds of millions of dollars' worth of new wealth is created from the soil each year.

**ZONE 7, TOO, LEADS AMERICA** in the value of manufactured products—just as it does in wealth, population, crop value, income tax-payers and motor vehicle registrations. Even the rich New York-New Jersey Zone must take second place to Chicago territory.

This fine balance between industry and agriculture makes buying slumps rare in Zone 7. Even in "off years," when sales in other sections have dwindled alarmingly, those in Zone 7 stand up surprisingly well.

Truly—as any Sales Manager will admit—a market well worth fighting for! And in considering Chicago territory, bear in mind this very important fact—

**CHICAGO TERRITORY IS CHICAGO TRIBUNE TERRITORY.** Through this one great newspaper you can reach and influence the tremendous buying power of five great states—Illinois, Iowa, Indiana,

Michigan and Wisconsin. And you can do it economically.

The 900,000 circulation of The Chicago Tribune literally blankets Zone 7. In Chicago and its suburbs The Tribune reaches an average of three out of every five families. In 137 cities of over 5,000 population outside of Chicago, The Tribune reaches  $\frac{1}{2}$  to  $\frac{3}{4}$  of all the families. In hundreds of smaller towns, served only by local weeklies, The Chicago Tribune is the daily paper of the community.

**IF YOU MADE AN INVESTIGATION** over the entire zone you would discover that 81% of all jobbers are regular readers of The Chicago Tribune and that 72% of them recognize it as exercising a definite influence on sales. You would find that 65% of all retailers read The Tribune and that even more of them—71% declare it to be a vital power for stimulating better, quicker and more substantial sales.

When you concentrate your advertising in The Chicago Tribune you cover the country's richest section with the most powerful selling force in this or any other market. Manufacturers in dozens of different lines have proved that good, strong advertising, put before the people of Zone 7 through The Chicago Tribune alone, exerts the full amount of pressure

needed to win and hold a market that includes one-fifth of all the wealth in the United States.

**ANOTHER FACTOR THAT SALES MANAGERS** appreciate is this—Zone 7—though tremendous in wealth and buying power—is exceedingly restricted in area. It can be covered quickly, easily and economically. Selling costs can be kept remarkably low. Returns are greater in proportion to the money expended.

**IF YOU ARE AIMING AT BETTER CO-OPERATION** on the part of your sales force, you can hit the bull's eye with The Chicago Tribune. If you are seeking increased distribution in Zone 7 for a worthy product, you can find it with The Tribune's help. To co-ordinate your sales and advertising efforts is utterly impossible with national mediums, but you can do it through intensive use of The Chicago Tribune.

The Tribune has thirty men—trained not only in advertising but in merchandising as well. Each one has directed sales campaigns in Chicago Tribune territory. Each knows by continuous contact with jobbers and retailers just what a manufacturer can do in Zone 7 and how he can do it. A letter, a postcard or a phone call will bring one of these men to your office.

LAST YEAR BY 300

The Works' evening school opened its doors this term with a total enrollment of 1,500, which exceeds last year's figure more than 300 students.  
This very successful increase in enrollment is attributed by officers of the evening school, which sponsors the school, chiefly to the addition of three new courses and to the fact that more than 600 members of last year's classes returned to follow new lines of endeavor. The addition of more than 100 employees to the Works within the year has also helped boost the enrollment.

## BELOIT ELEVEN OPENS DRILL FOR PURPLE BATTLE

Beloit, Wis., Oct. 1.—(Special.)—Three of Coach Tommy Mill's eleven ball stars who were expected to return heavily in Beloit's game against Northwestern University Saturday were away from practice tonight because of injuries received in the game. Coach McLaughlin is suffering with an injury over his kidney. Tackle Olson sustained minor injuries, and Guard Schuster is suffering with a knee. It is not believed that McLaughlin will be kept out of the Evanston game. The remainder of the squad reported in fine shape and took a light drill.

### PURPLE HARD AT WORK

Rae Lander's performance in the backfield was the brilliant sidekick to the Northwestern variety engaged in its second scrimmage with the Purple. The Purple back was the outstanding performer of the afternoon, ripping repeated holes in the freshman wall, despite the fact that his own forwards did little to help him.

Fred DeStefano also smashed through the opposition in fine style. He moved down his would-be tacklers like a machine gun, and the two halves paraded the ball down the field several times. It began to look like DeStefano will occupy the full back berth this season, as Wisconsin continues to be absent from scrimmage, due to lack of a lack of material in giving the Purple mentors their chief worry.

Sam Taylor will not be eligible to compete in Saturday's clash with Beloit. Red Herman, Wally Seidel, and Roy Bouscher are being groomed to take his place. Bill Johnson is holding down his position well at the other end.

Last evening's scrimmage with the freshmen was preceded by a long drill on catching passes. The line looked sluggish, and was unable to keep pace with the backfield, reversing the condition of the previous week.

Coach Glenn Thielthwaite is looking for no setup in the Beloit team, after reports brought back by scouts who witnessed the Beloit-DeKalb game.

## GEORGES KNOCKS OUT BECKETT IN 1ST ROUND

**CHALLENGES M'TIQUE**  
COLUMBUS, Ga., Oct. 1.—(Special.)—Georges Carpentier, the French heavyweight, tonight cabled a challenge to Mike McGuffee, the Irish heavyweight champion of the world, for a bout to be fought in America in the near future, according to an announcement tonight by Manager Joe Jacobs for McGuffee, who defends his title against Young Stribling here Thursday.

### CHALLENGES M'TIQUE

**LONDON, England, Oct. 1.—(Associated Press.)**—It took Georges Carpentier, the French fighter, just about twenty seconds tonight to put the quietus on the championship aspirations of Joe Beckett, who holds the heavyweight title in Great Britain.

Carpentier used both left and right in a brief series of exchanges. The two men received a great ovation when they entered the ring for their twenty round bout, and for a fleeting moment Beckett was wreathed in smiles.

His supporters, however, could hardly have witnessed a speedier greater disappointment. Beckett led with a light left to his opponent's jaw, but there was no power in the blow, and Carpentier shot over a left, followed by a right to Beckett's jaw with terrible force.

The Englishman got to his feet rather groggy, and the Frenchman dashed in and with right and left, beat Beckett down again near the ropes, falling on top of him. On rising, Carpentier stood back. Beckett gripped the bottom rope in an effort to pull himself to his feet, but was so badly spent that apparently he had lost all sense of what was going on, and before the count had been completed, his second threw in the towel.

After the fight Carpentier said it was all over so quickly that there was nothing to talk about. Asked about his future plans, he replied: "I am off to America next month, and if I beat Tom Gibbons I hope to meet Dempsey again."

### Renault Knocks Fulton Out in Ninth Session

**Boston, Mass., Oct. 1.—(Special.)**—Jack Renault knocked out Fred Fulton in the ninth round of their ten round bout at the Arena A. C. tonight with a hard right to the jaw. This makes Renault's twelfth straight knockout. The fight was delayed a half hour as the result of an attachment on Fulton's money by Tom O'Rourke, his former manager.

### Kearns Joins Dempsey on Coast; No More Bouts in '23

**Los Angeles, Cal., Oct. 1.—(Special.)**—Jack Kearns, manager for Jack Dempsey, has joined the heavyweight champion at the latter's home. Kearns says Dempsey will not undertake a series of ring engagements "before next year. The champion will pass the winter here, while his manager will spend some of his time in Oakland."

## Cry of 'Fake' Goes Up When Freedman K. O's Padgett

The cry of "Fake" went up last night from the crowded house at East Chicago which saw Sailor Freedman knock out Cowboy Padgett in the third round of a scheduled ten round bout. That cry was the echo of rumors that floated all over the loop yesterday and last night that Padgett was to lay down to Freedman before the fourth round, and sent some of the layers skeddaddling all over town offering odds that Padgett would be knocked out for the first time in his career of over 100 battles.

### TRIBUNE DECISIONS

**Decisions of Tribune boxing representatives are:**  
At East Chicago—Sailor Freedman knocked out Cowboy Padgett [3]. Patsy Rocco beat Wren Williams [10]. Johnny Heffler knocked out Callahan [2]. Joe Franks and Freddie Brown, draw [6].  
At London—George Carpentier knocked out Joe Beckett [11]. Johnny Sullivan beat Al Sagley [10].  
At Boston—Jack Remick knocked out Fred Fulton [9]. Jack Schneider beat Alpe Chambliss [10].  
At Milwaukee—Milly Wells beat Joe Simonson [10]. Italian Joe Gans knocked out Jimmy Vital [9]. Larry Schick beat Ed Ryan [6].  
At Cincinnati—Johnny Gill beat Chief Heston [10]. Willie Sullivan beat Jimmy Gordon [6].  
At Detroit—Jack Jallik knocked out Morrie Johnson [10].  
At New Orleans—Joe Smith beat Chuck Wiggins [10]. Pete Bates beat Buckshot Smith [10]. Charlie Rodriguez beat Bobby Coleman [6].  
At Scranton, Pa.—Frankie Schell knocked out Frankie Marshall [4].  
At Toronto—Baby Elmer and Young Mack fought draw [15].  
At Indianapolis—K. O. Jenkins knocked out Jimmy O'Leary [10]. Jimmy Patten beat Fred McRae [10]. Happy Atherton beat Dick Osborn [10]. Dutch English and Ed McNeely fought draw [10].

**Toss in the Towel.**  
Freedman easily won the first round, in the second, just before the bell rang, he landed a right to the chin and the cowboy went to the mat for a count of two. In about a minute after the third round opened, Padgett landed another right to the button and the Colorado boy took a count of nine—these are the only two times in his long career, according to the referee, that the cowboy ever took a count of nine or more.

The cowboy, after shaking his head in an apparent attempt to clear his mind, went into a clinch. After the clinch, he landed a right to the head and the cowboy went down on one knee. He shook his head with a heavy good will until the count of five, looked at his corner, and in about a minute he was back on his feet.

The cowboy looked a bit peeved, as if he wished the towel had been shot in at the previous count of nine.

### KID WAGNER TO ARRIVE TODAY FOR MANDELL GO

**Edie [Kid] Wagner, Philadelphia Junior lightweight matched to box Sammy Mandell of Rockford in one of the feature ten rounders at Jim Mullen's Aurora arena on Friday night, and his manager, Max Hoff, are due to arrive in Chicago this morning.**

Hoff has posted forfeits with Mullen to assure the appearance of his boy. The managers of the other boxers who are to appear on the card have done likewise. Mullen states that there will be no slip-ups such as happened on last week's card. Each boxer he signs to appear before his club is to put up a \$500 cash bond hereafter.

Mandell is in the midst of serious training. While he is below the 150 pounds agreed for the fracas, he put in a strenuous day at the Arden yesterday, boxing all rounds.

Wagner, Smith, Oklahoma cowboy under management of Ray Alvin, also went through a hard day's toll, as did Patsy Flanagan. Smith meets Joe Jackson of Philly at 150 pounds for ten rounds, and Flanagan boxes Charlie Clark on the same card.

The preliminaries for these bouts will bring the following boys together: Jimmy Anderson, local 140 pounder, vs. Frankie Shaw, six rounds; vs. Bob Roberts, 100 pounds, six rounds; vs. Ed Pinner, at 135 pounds, four rounds.

Michio Fortina, local welterweight, and Young Demay of New Orleans were matched yesterday to box ten rounds at George Owens' club in East Chicago Monday night.

Johnny Tillman, veteran welterweight of Minneapolis, passed through Chicago on his way home from New Orleans, where on Saturday night he dropped a close ten round decision to Tommy Freeman.

## BELMONT TRIES AGAIN TO MATCH ZEY, MY OWN

**NEW YORK, Oct. 1.—(Special.)**—Developments in the heated controversy which has arisen over the selection of the American representative to meet Papyrus, the winner of the English Derby, in the \$100,000 international race at a mile and a half at Belmont park on Oct. 20 came with startling rapidity today.

## GRAINS UP ON BULL MOVEMENT CORN AND OATS

BY CHARLES MICHAELS.

Grain markets showed pronounced bullish movement throughout the day, the bull movement in corn and oats being especially pronounced with May corn and delivery of oats at a new high for the season.

Numerous stop loss orders were placed on the way up, with the price of May corn at 1.02 1/2 on the close, a net gain of 1/4 of a cent on the day. Wheat derived a good part of its strength from coarse grains, but was 1/4 of a cent higher in the face of a heavy underside in the northwest, with December 1.06 1/2 and May 1.10 1/2.

Legislation Talk Helps Wheat. A belief that some sort of legislation would be passed through a congress this year to help advance wheat prices, together with the news of the Gould and McClellan influence on wheat futures, helped to move the market.

Grain prices in leading markets follow:

Cash House by Rye.

Cash house were on the buying side of the market and May rye early, and with wheat firm, an advance was likely attained. Nothing was heard of export business, and if it comes in, it is going to help wheat farmers.

Provisions were firmer with grain and meat, but closing unchanged to 1/2 higher and ribs unchanged to 1/2 lower. Trade was not large. Liverpool and London unchanged to 1/2 higher. Prices were 1/2 higher.

U. S. EXPORTS TO EUROPE SHOW \$18,000,000 DROP

Washington, D. C., Oct. 1.—A slump of more than \$18,000,000 in American exports to Europe during August as compared with August a year ago is shown in statistics made public today by the commerce department. The decrease, however, was more than made up by the increase of exports to other parts of the world.

Exports to Europe during August were \$18,000,000 less than during August a year ago, or \$18,000,000 less than during August a year ago, or \$18,000,000 less than during August a year ago.

WIG'S PROFIT IS \$216,983 THIS YEAR, SAYS HEAD

Memphis, Tenn., Oct. 1.—C. D. Smith, president of the Piggy-Wigly corporation, testifying today at the hearing of a petition for receiver for the corporation, instituted by Clarence P. Pendergast, former Piggy-Wigly executive, but which the corporation is contesting as unwarranted, declared that the corporation had a net profit of \$216,983 during the first eight months of 1923.

He estimated the approximate income of the corporation at \$1,000,000, but declared that \$985,000 had been paid out in salaries and expenses.

During 1922, Mr. Smith said, the corporation did not make enough money to pay a single dollar in income tax and that it would not only not pay a cent of income tax, but would also receive a refund of a certain amount already paid.

## CASH GRAIN NEWS

Seaboard brokers generally reported little or no business in wheat and there appeared to be but moderate demand. Sales of wheat were estimated at 500,000 bushels in Chicago and 200,000 in St. Louis.

Chicago handlers sold 5,000 bu. of wheat, domestic trade with 100,000 bu. wheat to be delivered on October 15th.

Deliveries on October 15th for 100,000 bu. of wheat to be delivered on October 15th.

## WORLD'S GRAIN MARKET NEWS

With cash corn leading the advance and with a small movement of only 500,000 bu. to stock in Chicago and 200,000 bu. in St. Louis, or 10,154,000 bu. less than last year, the market's action suggested that prices had not reached their top.

Traders who have sold corn of late, thinking prices high enough, were in many cases regretting their late selling.

Local operators who were bullish and sold at the start had higher prices later to get it back. There were realizations at the start, but a local operator, but it failed to affect the market.

It is not expected that new corn will be moving to any extent in the next few weeks, as viewed by a large central Illinois operator.

English crop reports from private intelligence had as much to do in influencing buying of corn by local traders as did the action of the market.

As wheat gets support on all sides in prices, the market is becoming convinced that some one is furnishing the buying and keeping out of the market.

A number of the big commission houses had good orders, while selling pressure was limited. It is claimed that we are on a domestic basis, and that western mills are importing Canadian wheat owing to scarcity of domestic.

The Gould plan of exporting 50,000,000 bu. or more of wheat and selling it to Germany on credit for six months to a year is regarded as likely to receive special consideration at Washington.

**SHOWING HOW HE WON THE TITLE.** Tiff "Tiff" Denton of Kansas City, who won the national three cushion billiard championship at Philadelphia, showed Chicago players last night how he did it. (Story on page twenty-four.)

BY ARTHUR SEARS HE  
Chicago will get the Re-  
national convention next  
was learned definitely yes-  
Following the disclosure  
ident Coolidge that he has  
erence to express in the  
the convention city, Fred  
ham, treasurer of the Re-  
national committee, has  
enough votes to make a  
choice of Chicago when  
committee meets at Wash-  
December to issue the call  
party gathering.  
The Democratic national  
convention, according to De-  
sources of information, is  
be held in New York City  
simple reason that New York  
states are preparing to  
other competitors with an  
ble offer. New York, it  
stood, will offer the De-  
national committee a certifi-  
of between \$300,000 and  
The convention will cost  
than \$100,000, and the  
of the contribution will go  
campaign war chest.

Influence that President  
is preparing to confer ex-  
Democratic as well as Repu-  
blitan on the question of ob-  
taining approval of American  
the world court protocol pro-  
or less committee among Re-  
publicans in Chicago yesterday.  
A state bordering on ex-  
tremism wherever the cap-  
tain Johnson forces were  
together and gained unusu-  
al success because of the fact  
government to nominate the  
senator seems to be center-  
ing at this time.  
The prevalent opinion in the  
camp was that the political  
in the Republican party is  
world developments that will  
enable to declare himself a  
for the nomination in op-  
position to Coolidge.

Notes for U. S. in World  
The President's move to in-  
volve the world court plan with sense  
was interpreted by the John-  
son camp as signaling a serious  
turn in the part of the ex-  
ecutive and his powerful influ-  
ence acceptance of the propo-  
sition President Harding re-  
sulting Secretary of State Hughes  
confirmation of this inter-  
view would be followed at no dis-  
tance by the announcement of the  
of Senator Johnson, in the  
his chief lieutenants in Chi-  
cago were in communication with  
Senator Johnson over this  
developments pertaining to  
course of action.

Leader to Back Johnson  
Albert D. Lasker, former  
of the shipping board, who  
a prominent part in the John-  
son camp, is becoming more  
date, was noncommittal, but  
however, on the plans of the  
who is in California fighting  
political existence.

When Senator Johnson le-  
aves several weeks ago his  
President Coolidge was  
waiting. Although  
by his followers to become a  
"national principle," as re-  
sulting progressive ideals in-  
consequence school of thought  
within the President is identi-  
fied. Johnson declined to cast  
the ballot pending developments.  
He would do nothing to em-  
bellish the President's position  
and unimpaired opportunity  
his course of action, and would  
his policies to the full extent  
harmony with progressive ideas.

Heads Hat in Room  
On one point the senator  
was emphatic. He made  
that if the President should  
align himself toward put-  
ting United States into the  
otherwise involving the  
European affairs he would  
be losing his hat into the  
middle of the Atlantic for the  
the irreconcilable Republican  
ism to European entanglements.  
The reason Johnson had  
been talking toward Coolidge  
was simply as soon as they  
the President's intentions in  
the world court.  
Coolidge parties were  
to be divided in their reaction  
to the news. Those who are  
American adherents to the  
movement on page 13, and
